Projects

ALL YOUR MUSIC NEEDS | [Repo](#) | Deployed

Software Engineer

- This application allows you to search up artists for their bio and upcoming concerts
- This project was conceptualized with our groups mutual love for music in mind. I was tasked with both the design and general JS logic.
- Tools/Languages: Javascript, HTML, CSS, Bootstrap, Moment, jQuery

THE KEY CHANGE | [Repo](#) | Deployed

Software Engineer

- This web application presents a centralized internet commerce hub for musicians to buy, sell, and auction instruments.
- This project was our group's first experience creating a mySQL database. I was responsible for setting up the routes and stylings of the page.
- Tools/Languages: Javascript, HTML, CSS, Bootstrap, Cloudinary
